

Saint Clare's Hospital

BEHAVIORAL HEALTH

October 29, 2009

To Whom It May Concern:

This letter is to inform you that Karen E. Golding, DOB 7/24/69, has been able to participate in two follow up individual therapy sessions since April, 2009. Karen also maintains regular phone contact with this clinician. Her last appointment was on October 6, 2009.

Karen continues to remain motivated to move on with her life. She continues to be able to articulate and accept responsibility for her past and present thoughts, feelings and behaviors. At the time of her last session, Karen did not indicate harm to self or others.

Karen would benefit from being able to move on with her life by being able to pursue gainful employment pending the conclusion of the legal proceedings and the withdrawal of the guilty plea.

If you have any questions or concerns please feel free to contact me at (973) 729-3117 ext 11.

Sincerely,

Brooke A. Donald, LPC, PsyD.
Senior Clinician
